

Exploring New Boundaries

## Vision

Our aspiration is a world where stakeholders engage in conversations and activities that explore creative and alternative futures that bring about meaningful change.

## Purpose

To enable conversations and activities that explore creative and alternative futures. We take pride in our ability to build the capacity of our clients and to leave behind the skills so they can change their world. We change the world by enabling others to change theirs.

## Method

We draw from a range of approaches and frameworks to create a unique and customised collaborative partnership with each client. People are at the core of our business philosophy and we believe in the power of ideas, creativity and the value of exploring future possibilities. We are facilitators with knowledge, not the experts in the room. We facilitate iterative processes of learning and activity. We draw on thinking frameworks that enable innovative approaches to complex situations.
